

# safertogether.com.au is your industry safety and collaboration hub.

**Initiatives**  
Useful information about all the Safer Together initiatives and links to valuable accessible content related to these initiatives.

**Sharing Library**  
Member companies share useful content (toolbox talks, safety moments etc) that other members can access and use in their own activities.

The Safer Together Website is a hub for members to search and access a range of useful safety related tools and initiatives.

**News**  
Coverage of relevant activities distributed by the Safer Together Monthly Bulletin and archived in our News section.

**Working Groups**  
Information about the various Safer Together Working Groups, the projects they are working on and how you can get involved.

**Events**  
Up to date information about upcoming (and past) events ranging from the broader Industry Safety Forums to specific workshops run by the various working groups.

The Safer Together website is a public website although tools, initiatives and shared information is only available to member companies. Any employee of a member company can register with the website to access the material, simply go to safertogether.com.au > member login > register and follow the prompts to complete your registration.

## Why Collaborate?

We operate within common geographical areas which involves many overlaps with communities and regulators. As we use similar technologies with common hazards and risks we believe that in terms of safety we must be seen as one industry and not separate companies. As a result, collaboration on safety is a natural outcome.

The benefits for all the collaborating companies are clear common standards and tools, together with shared expectations of implementation.

**Safer Together** is a not-for-profit, member-led organisation of Oil and Gas Exploration and Production Industry Operating Companies and Contract Partner Companies committed to creating the leadership and collaboration needed to build a strong and consistent safety culture in our rapidly evolving industry.

## Safety Leadership

### Safety Moment Cards

A simple, practical tool to provide inspiration for interactive Safety Moments in the workplace.

### Safety Culture Survey

A workforce engagement tool to assess and measure safety culture maturity and identify key areas for focus and improvement.

### Safety Culture Toolkit

Strengthen your organisation's safety culture with 3 Safety Culture Toolkit Guides.

### Safety Leadership Tours

Promote visible safety leadership and effective safety conversations at site level.

### Learning Events

Tool to assist with learning from unwanted events and/or threats in order to reduce the occurrence of high potential incidents.

## Competence & Behaviour

### Industry Safety Induction

An Industry Safety Induction to drive consistency and cost efficiency in delivering safety induction training to all industry personnel.

### Common Industry Competencies

Standardisation of industry safety training requirements.

## Land Transport / Logistics

### Common IVMS Specification

Requirements for In-Vehicle Monitoring Systems used in the Oil and Gas Exploration and Production Industry.

### LV & HV Specifications

Specifications for light vehicles and heavy vehicles operating in the Oil and Gas Exploration and Production Industry.

### Chain of Responsibility

Guidelines and other tools to facilitate cost effective compliance with the CSG Logistics Safety Code of Practice.

### Land Transport Incident Review

Sharing of learning from incidents and innovations in land transport related activities.

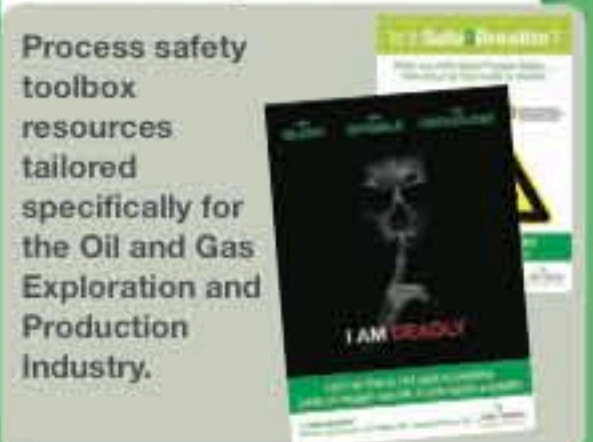

## Process Safety

### Contain It!

Mobile Major Accident Hazard Awareness Training.

### Process Safety Awareness

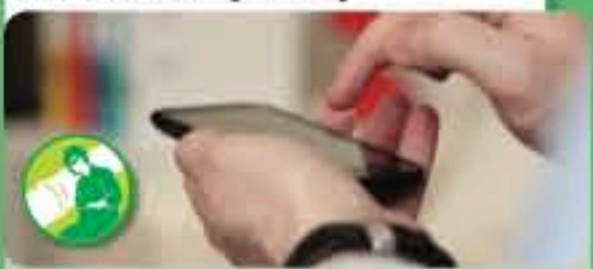

### Process Safety Incident Review

Communication and sharing of process safety incidents, learnings and key messages.

### Process Safety Survey

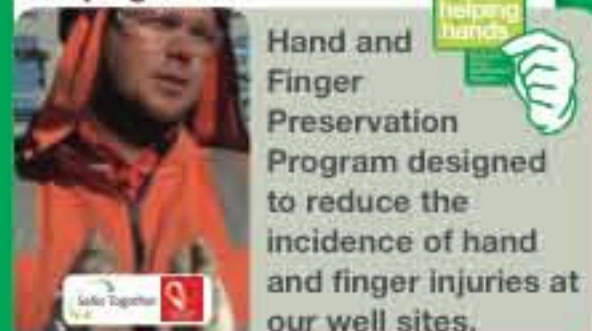

A survey across the industry to establish a baseline of process safety awareness and identify areas where more focus is required.

## Rig Site Safety

### Helping Hands

### D&C Industry Incident Review

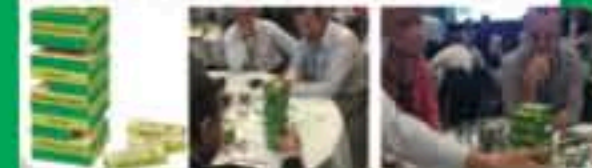

Sharing information about safety incidents and innovations within the Drilling & Completions sector.

### Assist & Assure

Assist & Assure is a leadership skills program that focuses on engaging the workforce through 3 strategies: 1. Transition to Work; 2. Working Safely (Step 7); 3. Effective supervision (before, during, after).

### Hazards & Habits

A tool to help improve frontline worker connection with the hazards that they are exposed to in their day to day activities and the associated life-saving habits.

### Other Rig Site Safety Resources include:

- SSEM Tool
- Work Party Interaction Table
- Drops Management System Self Assessment Guideline

## Marine

### Marine Safety Alerts

Marine Safety Alerts from events sourced internationally and locally.

### Marine Incident Review Panel

Marine Incident Review Panel (MIRP) to share lessons learnt from incident investigations and information about safety innovations within the Marine sector of the WA/NT Gas Exploration & Production Industry.

## Aviation

### Aviation

The Aviation Working Group exists to further safety and efficiency in aviation activities through collaboration between users and operators of aviation services.

## Health Projects

### Health Matters

Health Matters is place where you can find help to address health and mental health issues. It's also a place where you can help your work mates by sharing what you're doing to manage health and mental health issues in your workplace.

### Fitness To Work

Fitness to Work is recognised as being an important topic for our industry and one where a significant opportunity exists for greater levels of standardisation. A new Project team has recently been formed to progress work on developing an industry framework for Fitness for Work medical assessments.

## What We Are Working On

### Safety Leadership

- Safety Culture Survey Enhancements and WA/NT rollout
- Implementation Support Resourcing
- Social Media Rollout
- Learning Event Bulletins digital tool
- Safety Leadership Coaching
- Field Verification
- Engagement of Health, Safety & Environment Reps

### Competence and Behaviour

- Industry Safety Induction MHF content and WA/NT rollout
- Common Industry Competencies revised/new content (including Heat Stress) and WA/NT rollout
- Leading a Safe Culture
- Competence Management Framework

### Land Transport/Logistics

- Uniform Non-Conformance Reporting
- Light Vehicle, Heavy Vehicle and IVMS Specifications implementation and maintenance
- Light Vehicle Driver Training

### Process Safety

- Process Safety Survey analysis and actions WA/NT
- Process Safety Awareness Video Campaigns
- ContainIt! delivery model QLD and WA/NT evaluation
- Wellsite Process Safety
- Process Safety Performance Metrics

### Rig Site Safety

- Assist and Assure training and coaching Rollout
- Hand and Finger Preservation Forum Follow Up
- Line of Fire
- Safety Alerts and Quick Shares WA/NT

### Aviation

- Common HLO Training
- Common Passenger Safety Equipment
- Helicopter Auditing and Validation

### Marine

- Safe Deck Operations
- Vessel Reactivation Guidance
- Management Systems Bridging
- SurveySafe Events

### Health Projects

- Medical Assessment Guideline

Safer Together. Working together to make our industry safer.
