

What's Happening in 2019-2020?

Here's a snapshot of the tools and programs that are being built in the next 12 months on your behalf - it's now over to us to use them.

Working Group	Q3 2019	Q4 2019	Q1 / Q2 2020
Safety Leadership	Safety Culture Survey An engagement tool to assess and measure safety culture maturity and identify key areas for focus and improvement.		Field Verification A guide for Field Verification Processes to ensure key barriers are in place and effective.
Competence & Behaviour	Frontline HSE Representative Engagement Framework for frontline HSE Representatives Engagement.		
Land Logistics	Industry Safety Induction Standardised Industry Safety Induction (ISI) training for all new starts to the Industry.	Common Industry Competencies Standardised industry safety training requirements.	Fitness to Work Medical Assessment Guideline A consistent approach for managing Fitness to Work Medical Assessments.
Process Safety	Uniform Non-Conformance Reporting A process for Land Transport and Supply Base HSE non-conformances to be submitted on a periodic basis forming an industry NCR database.	Loading & Unloading Exclusion Zone Guideline Guidance for establishing and observing safe loading and unloading exclusion zones.	Light Vehicle Specification Standardised requirements for Light Vehicles.
Marine	Heavy Vehicle Specification Standardised requirements for Heavy Vehicles.	IVMS Specification Standardised requirements for In-Vehicle Monitoring System settings.	ContainIt! Mobile Major Accident Hazard awareness training program.
Aviation	Process Safety Incident Review Panel Communication and sharing of process safety incidents, learnings and key messages within the Oil and Gas Exploration and Production Industry.	Safe Deck Operations A consistent approach for Safe Deck Cargo Operations on Offshore Vessels.	
		Marine Forum and Incident Review Panel Share safety incidents and innovations within the Marine sector of the Oil & Gas Exploration and Production Industry.	
		HLO Training Standardised Helicopter Landing Deck Operator training.	
		PAX Safety Equipment A common set of criteria for the selection of helicopter passenger safety equipment.	

KEY

- Standardisation initiative contractually enforced by Operators
- Major sharing initiative
- Sharing initiative

Working Together

Keeping Together

Safer Together

Rollout 2019-2020

Here's a step-by-step guide to communicating and implementing Safer Together tools and programs within your company.

Available	1	2	3	4	5	6	7	8	9	10
Develop a rollout and implementation plan. Use the Implementation Guide where provided.										
Assign responsibilities for rollout and implementation.										
Brief responsible parties and your management team about the rollout and implementation plan. Use the Implementation Pack where provided.										
Provide rollout materials. Procure tools where applicable. Develop implementation processes.										
Monitor progress of rollout and implementation. Measure outcomes. Learn and improve.										
Develop processes for authorising step-out/deviations from Specification requirements.										
Update Terms and Conditions of Contract to include Specification requirements and consequences for non-compliance.										
Notify Vendors and Suppliers about Specification requirements.										
Include compliance with Specification requirements in Pre-qualification processes and tender evaluations.										
Check compliance with Specification requirements in HSE inspection and audit programs. Report non-compliance and track corrective action.										

Safety Leadership

- Safety Culture Survey**
An engagement tool to assess and measure safety culture maturity and identify key areas for focus and improvement. **Q3 2019**
- Frontline HSE Representative Engagement**
Framework for frontline HSE Representatives Engagement. **Q3 2019**
- Field Verification**
A guide for Field Verification Processes to ensure key barriers are in place and effective. **2020**

Competence & Behaviour

- Industry Safety Induction**
Standardised Industry Safety Induction (ISI) training for all new starts to the Industry. **Q3 2019**
- Common Industry Competencies**
Standardised industry safety training requirements. **Q4 2019**
- Fitness to Work Medical Assessment Guideline**
A consistent approach for managing Fitness to Work Medical Assessments. **2020**

Land Logistics

- Uniform Non-Conformance Reporting**
A process for Land Transport and Supply Base HSE non-conformances to be submitted on a periodic basis forming an industry NCR database. **Q3 2019**
- Loading & Unloading Exclusion Zone Guideline**
Guidance for establishing and observing safe loading and unloading exclusion zones. **Q4 2019**
- Heavy Vehicle Specification**
Standardised requirements for Heavy Vehicles. **Q4 2019**
- IVMS Specification**
Standardised requirements for In-Vehicle Monitoring System settings. **2020**
- Light Vehicle Specification**
Standardised requirements for Light Vehicles. **2020**

Process Safety

- Process Safety Incident Review Panel**
Communication and sharing of process safety incidents and learnings within the Industry. **Q3 2019**
- Containit!**
Mobile Major Accident Hazard awareness training program. **2020**

Marine

- Safe Deck Operations**
A consistent approach for Safe Deck Cargo Operations on Offshore Vessels. **Q3 2019**
- Marine Forum and Incident Review Panel**
Share safety incidents and innovations within the Marine sector of the Industry. **Q4 2019**

Aviation

- HLO Training**
Standardised Helicopter Landing Deck Operator training. **Q4 2019**
- PAX Safety Equipment**
A common set of criteria for the selection of helicopter passenger safety equipment. **Q4 2019**
