

# The Safer Together website is your industry safety and collaboration hub.

**Register**  
The Safer Together website is a public website although tools, initiatives and shared information is only available to member companies. Any employee of a member company can register with the website to access the material, simply go to member login and select "register" and follow the prompts.

**News**  
Coverage of relevant activities distributed by the Safer Together Monthly Bulletin and archived in our News section.

**Events**  
Up to date information about upcoming (and past) events ranging from the broader Industry Safety Forums to specific workshops run by the various working groups.

**Products**  
A range of Safer Together products are available for order through the Product shop.

**Home Page**  
The Safer Together Website is a hub for members to search and access a range of useful safety related tools and initiatives.

**Working Groups**  
Information about the various Safer Together Working Groups, the projects they are working on and how you can get involved.

**Downloads**  
Over 200 individual resources are available to support the various initiatives and tools that Safer Together has developed. All of these can be downloaded by members to use in their organisations.

**Sharing Library**  
Member companies share useful content (toolbox talks, safety moments etc) that other members can access and use in their own activities. Members can upload their own content through the "something to share?" function.

**Initiatives**  
Useful information about all the Safer Together initiatives and links to valuable accessible content related to these initiatives.

## Why Collaborate?

We operate within common geographical areas which involves many overlaps with communities and regulators. As we use similar technologies with common hazards and risks we believe that in terms of safety we must be seen as one industry and not separate companies. As a result, collaboration on safety is a natural outcome.

The benefits for all the collaborating companies are clear common standards and tools, together with shared expectations of implementation.

**Safer Together** is a not-for-profit, member-led organisation of Oil and Gas Exploration and Production Industry Operating Companies and Contract Partner Companies committed to creating the leadership and collaboration needed to build a strong and consistent safety culture in our rapidly evolving industry.

**Prevent harm** to our people, assets, community and environment

**Develop and adopt** common industry solutions

**Share and learn** to prevent future incidents

**Collaborate** to support a positive safety culture

## Safety Leadership

### Safety Moment Cards

A simple, practical tool to provide inspiration for interactive Safety Moments in the workplace.

### Safety Culture Survey

A workforce engagement tool to assess and measure safety culture maturity and identify key areas for focus and improvement.

### Safety Culture Toolkit

Strengthen your organisation's safety culture with 3 Safety Culture Toolkit Guides.

### Safety Leadership Tours

Promote visible safety leadership and effective safety conversations at site level.

### Learning Event Bulletins

Tool to assist with learning from unwanted events and/or threats in order to reduce the occurrence of high potential incidents.

### HSE Representative

Framework for frontline HSE Representatives engagement.

## Competence & Behaviour

### Industry Safety Induction

An Industry Safety Induction to drive consistency and cost efficiency in delivering safety induction training to all industry personnel.

### Common Industry Competencies

Standardisation of industry safety training requirements.

## Land Transport / Logistics

### Common IVMS Specification

Requirements for In-Vehicle Monitoring Systems used in the Oil and Gas Exploration and Production Industry.

### LV & HV Specifications

Specifications for light vehicles and heavy vehicles operating in the Oil and Gas Exploration and Production Industry.

### Uniform Non-conformance Reporting

A common process for Oil & Gas supply chain related HSE non-conformances.

### Chain of Responsibility

Guidelines and other tools to facilitate cost effective compliance with the CSG Logistics Safety Code of Practice.

### Land Transport Review Panel

Sharing of learning from incidents and innovations in land transport related activities.

## Process Safety

### Contain It!

Mobile Major Accident Hazard Awareness Training.

### Process Safety Awareness

Materials tailored specifically for our industry to use in educating our workforce, improving conversations and emphasising everyone's role in process safety.

### Process Safety Incident Review

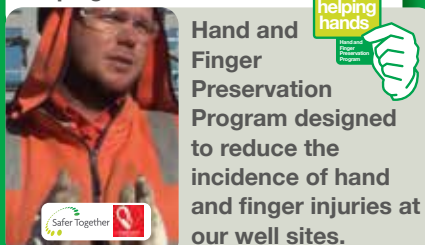

Sharing information about process safety incidents and innovations.

## Rig Site Safety

### Helping Hands

Hand and Finger Preservation Program designed to reduce the incidence of hand and finger injuries at our well sites.

### D&C Industry Incident Review

Sharing information about safety incidents and innovations within the Drilling & Completions sector.

### Assist and Assure

A leadership skills program that focuses on engaging the workforce through three strategies: Transition to Work, Safe Work Process and Effective Supervision.

### Hazards & Habits

A tool to help improve frontline worker connection with the hazards that they are exposed to in their day to day activities and the associated life-saving habits.

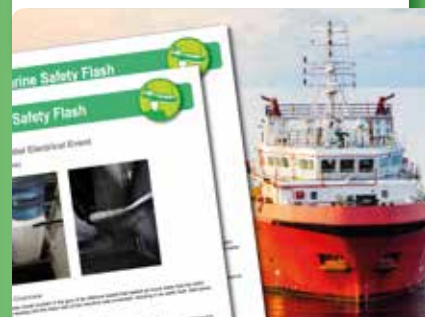

Other Rig Site Safety Resources include:

- SSEM Tool
- Work Party Interaction Table
- Drops Management System Self Assessment Guideline

## Marine

### Marine Safety Alerts

Marine Safety Alerts from events sourced internationally and locally.

### Marine Forum & Incident Review

Share safety incidents and innovations with the Marine sector of the WA/NT Oil and Gas Exploration and Production Industry.

### Safe Deck Operations

Standardising and implementing best practices for deck cargo handling to minimise risk to vessel deck crew.

## Aviation

### Aviation

The Aviation Working Group exists to further safety and efficiency in aviation activities through collaboration between users and operators of aviation services.

## Health

### Health Matters

Health Matters is place where you can find help to address health and mental health issues. It's also a place where you can help your work mates by sharing what you're doing to manage health and mental health issues in your workplace.

# What We Are Working On

### Safety Leadership

- Safety Culture Survey Enhancements and WA/NT rollout
- Implementation Support Resourcing
- Safety Leadership Coaching
- Engagement of Health, Safety & Environment Reps

### Competence and Behaviour

- Industry Safety Induction WA/NT rollout
- Common Industry Competencies revised/new content and WA/NT rollout
- Improved Incident Investigations
- Effective Safety Conversations

### Land Transport/Logistics

- Light Vehicle, Heavy Vehicle, IVMS and UNCR Specifications implementation and maintenance
- Light Vehicle Driver Training
- Common IVMS Roadmap
- Safe Transport of Passengers
- LUEZ Guideline rollout
- COR Awareness Campaigns WA/NT

### Process Safety

- Process Safety Awareness Video Campaigns
- ContainIt! delivery model WA/NT
- Process Safety Metrics
- Process Safety Fundamentals
- Permit to Work Sharing and Commonality

### Rig Site Safety

- Assist and Assure training and coaching rollout
- Line of Fire
- Safety Alerts and Quick Shares WA/NT
- D&C Incident Statistics Deep Dive

### Marine

- Safe Deck Operations rollout
- Lifeboat Testing and Recovery

### Aviation

- HLO Training
- Passenger Safety Equipment
- Fatigue Seminar

### Health

- Medical Assessment Guideline

Coming Together. Working Together. Keeping Together. Safer Together.
