HSER Forum 2023 Wrap-Up

READ MORE

SCAN ME

“Not Safe? Not Sure? Speak Up!” was the theme of 2023’s Health Safety Environment Representative (HSER) Forum in Perth. **SAVE THE DATE: Our next HSER Forum is in Darwin on 12th June 2024!**

Q1 Theme: Preventing Major Accidents

January brings our first Quarterly Theme for 2024: Preventing Major Accidents. A good understanding of Major Accident Hazards (MAHs) is key to maintaining safe operations. How these hazards are managed can help prevent major incidents and ultimately save lives.

Mitigating Heat Stress

READ MORE

Summer is here, and we have launched our updated and improved Management of Heat Stress Guideline and Heat Stress e-Learn tool - both endorsed for deployment Australia-wide.

Process Safety is Everyone’s Business

Process Safety is about good practice to ensure that the process equipment that we maintain and operate will not lead to the release of hazardous materials, or energy that could hurt people or the environment.

Learning from Process Safety Events

Preventing harm to frontline workers via sharing is central to Our Commitment. Learning Event Bulletins (LEBs) focus on ‘unwanted events/threats’ as a trigger to investigate and disseminate lessons learned. We investigate, report, and share the lessons from these ‘High Value Learning Events’ occurring, and use these LEBs to facilitate discussions designed to influence and reinforce positive behaviours focused on helping prevent harm to frontline workers.
